### **Deadly Asbestos Facts:**

- Asbestos is a human carcinogen and there is no safe level of exposure.
- Disregarding policies and scientific reports from the World Health Organization (WHO), International Labour Organization (ILO), and the International Agency for Research on Cancer (IARC); Canada continues to export of asbestos to the developing world.
- Canada is the fourth biggest exporter after Russia, Kazakhstan and Brazil.

**We, as asbestos victims, urge Prime Minister Harper to stop the mining and exporting deadly asbestos to the developing world.**
